

Krystian Rygiel

I design and code interfaces, lead teams and build products: from key visuals, through marketplaces, to AI-powered platforms.

Vue.js / Nuxt.js / TypeScript / React / JavaScript

Role	Based in	Experience	Status
Frontend Developer · Tech Lead	Warsaw · remote	since 2013 · 12+ years	open to projects

Experience

2019

2019 → present

● present

Polkomtel Telecom · Plus

Tech Leader / Front-end developer · 2024 → present

- Setting the technical direction and roadmap for the projects
- Mentoring a team of developers and team leaders
- Building new applications as part of the Portals programme
- Paying down technical debt across legacy code

Team Leader / Front-end developer · 2019 → 2024

- Front-end development for Plus.pl, Sklep.polsatbox.pl and Plusbezlimitu.pl
- Setting the technical direction and roadmap for the projects
- Leading and mentoring the development team

2025

November 2025 → present

Invio Technology Product · Meal-plan catering

I build the interface of foodify.com, a diet catering service. A Nuxt 3 front-end wired to a PHP back-end, with AI-assisted development shortening the path from idea to release.

Senior Frontend Consultant / Vibe Coder

- Building the ordering flow: from picking a diet and plan through to checkout
- Apple Pay and Google Pay payment integration on the front-end side
- Nuxt 3 front-end wired to a PHP back-end
- Prototyping and shipping features with “vibe coding” (Cursor, Claude Code)
- Performance, accessibility and conversion tuning of key screens

Nuxt 3 / PHP / Apple Pay / Google Pay / AI-assisted dev

Pogaduszki.pl Product · Healthcare

I designed an end-to-end platform for speech therapy practices, combining day-to-day business tooling with technology that supports the therapy itself.

Tech Lead / CTO

- Admin panel for speech therapists: running a practice along a structured methodology
- Online payment system for bookings and settlements
- Mobile app for parents: buying therapy and accessing home exercises
- AI model integration for automated speech-impediment recognition

Vue / Nuxt / AI

2022

2022 → 2023

RedacreLTD Fintech · Trading

A portfolio management system for trading clients, integrated with the CryptoChill platform.

Growth developer

- Custom CRM covering the full trading-client lifecycle
- Optimisation of marketing and analytics processes
- Automation of client communication
- Secure CryptoChill API integration with transaction monitoring
- Real-time reporting of investment results

2019

2019 → 2023

Kinguin.net E-commerce · Gaming

Large-scale development of the kinguin.net marketplace.

Junior React developer

- Integration of an NFT marketplace with the existing sales platform
- Implementation of the merchant payout system
- Responsive front-end components for new payment methods
- Functional improvements to the e-commerce admin panel
- Administration and development of WordPress-based environments

2016

2016 → 2019

Team Kinguin Brand · Design

Graphic designer

- Consistent visual asset packs for social platforms
- Design of intuitive, well-crafted interfaces (UX/UI)
- Professional photo retouching for a range of media formats
- Advertising creatives supporting marketing campaigns

2016

2016

MEC (Wavemaker) Agency · Advertising

Digital designer

- Key-visual-based asset set for the LG campaign with Jakub Błaszczkowski
- Adapting creatives to many formats while keeping the brand consistent

2013

2013 → 2015

Fuero Interactive Agency · UX/UI

Graphic designer

- End-to-end interface and user experience design (UX/UI)
- Advertising materials for clients from local service businesses to large ticketing portals
- Solutions tailored to each industry and to end-user needs

Skills

Frontend

Vue.js · Nuxt.js · TypeScript · JavaScript · React · HTML · CSS / SASS

Backend · Infra

PHP · ASP.NET MVC/Core · WordPress · Docker · GIT · Kibana

Design · AI

Adobe Creative Cloud · UX / UI · AI-assisted dev · Vibe coding (Cursor, Claude Code)

Education

2019 → 2021

PJAiT, Warsaw
